

1           **Industrial Insurance Coverage for Hanford Workers**  
2                                   **- Special Agreement**

3   **WHEREAS** many workers and retirees are living with illnesses and diseases related to  
4   occupational chemical and/or radiation exposures on the Hanford reservation;  
5

6   **WHEREAS** employees are left struggling just to receive basic medical or disability  
7   coverage due to lack of access to personal exposure and medical records as a result of  
8   RCW 51.04.130;  
9

10   **WHEREAS** in 2001 the Secretary of Energy ordered the Hanford United States  
11   Department of Energy (USDOE) facility and contractors to stop fighting valid workers'  
12   compensation claims;  
13

14   **WHEREAS** the Secretary of Energy's above-stated policy was never implemented;  
15

16   **WHEREAS** the contractors simply appeal and extend the decision-making process -  
17   sometimes lasting up to twelve (12) years, sick workers have been forced to endure  
18   many medical exams at their own expense;  
19

20   **WHEREAS** this decision-making process is an expensive process for the employees and  
21   has required some to take out a second mortgage, caused some to be fired, caused  
22   workplace harassment and undue family stress;  
23

24   **WHEREAS** the University of Washington in performing medical studies concerning  
25   this issue has been restricted from receiving essential medical and exposure  
26   information;  
27

28   **WHEREAS** Washington State has the power to change or remove RCW 41.04.130;  
29

30   **WHEREAS** by doing so, it would save Washington State taxpayers millions of dollars;  
31

32   **WHEREAS** there is no longer a fear for national security as this is only a hazardous  
33   waste cleanup site now;  
34

35   **THEREFORE BE IT RESOLVED** that we, the Benton County Democratic Central  
36   Committee call on our State Legislators to change or remove RCW 51.04.130 and allow  
37   Washington State Department of Labor and Industries to run the Workers'  
38   Compensation Program with the Washington State Department of Ecology as oversight  
39   to protect workers' rights under state and federal hazard laws as  
40

41   **THEREFORE BE IT FURTHER RESOLVED** that Washington State appoint a  
42   Washington State Toxicologist and Washington State Industrial Hygienist to the  
43   Hanford site.
