

1           **Resolution to Allow Counties Implement a Severance**  
2                           **Fee on Sand, Gravel and Hard Rock**

3  
4   **WHEREAS** opportunities are limited for counties to collect revenue adequate for  
5 providing their required services and important social programs;

6  
7   **WHEREAS** many counties in Washington State contain valuable resources such as  
8 timber and mineral deposits (of sand, gravel and hard rock);

9  
10   **WHEREAS** counties with those mineral resources are denied significant sales tax  
11 revenue because so many of the sales are reported out of the county of extraction and  
12 the taxes from those sales go to the place of delivery;

13  
14   **WHEREAS** by contrast, since 1972 the State Legislature has authorized a 5% tax on  
15 private timber harvest with 1% going to the state and 4% going to the direct benefit and  
16 use by the county of harvest;

17  
18   **WHEREAS** in 1992 the timber harvest tax was extended to state and federal lands;

19  
20   **WHEREAS** timber is a renewable resource as compared with sand, gravel and hard  
21 rock which are not;

22  
23   **WHEREAS** Washington State does receive a minimal income from the “severance fee”  
24 it applies to the gross business revenue generated from the sale of sand, gravel and hard  
25 rock; and

26  
27   **WHEREAS** counties would be more equitably compensated for the extraction and sale  
28 of their valuable and non-renewable resource if allowed to enact a local option for a  
29 severance fee applied to the extraction of sand, gravel and hard rock;

30  
31   **THEREFORE BE IT RESOLVED** the Washington State Democrats and Central  
32 Committee submit this resolution and ask their state representatives to sponsor and  
33 enact state legislation that will authorize counties, as a local option, to implement a  
34 severance fee on sand, gravel and hard rock - to insure those counties are more  
35 adequately compensated for the minerals extracted and transferred out of those  
36 counties; and

37  
38   **THEREFORE BE IT FURTHER RESOLVED** the Washington State Democrats support  
39 legislation to authorize counties to implement, as a local option, a severance fee - to  
40 insure those counties are more adequately compensated for the minerals that are  
41 extracted and subsequently transferred out of those counties.
