

Resolutions Rules and Process Update

It has been over three years since the WSDCC Rules for Resolutions have been updated. The WSDCC Committees, Caucuses, and Local Party Organizations (LPOs) have grown greatly and become more active over this time period. To help LPOs, Committees, and Caucuses be more successful in supplementing the Party Platform through the resolutions process, the Resolutions Committee recommends the following updates to our process. We believe these changes will help us hear more voices in a timely manner at our meetings and be sure our resolutions are crafted as clearly and strongly as possible to advocate for appropriate policies and actions. The need of our “customers” (Current federal, state and local , Elected Officials, as well as Candidates) should remain at the very front of all our actions within the Resolutions Committee. Our Resolutions provide our sitting federal state and local Elected Officials with the voice of the people, as well as provide Candidates with crucial information and research that they need in order to run a successful campaign.

Summary of Proposed Updates for WSDCC Resolutions Process:

- Standardize submission of REGULAR resolutions ahead of upcoming scheduled WSDCC meeting.
 - Intent** - Create process consistency between LPOs, Committees and Caucuses and allow enough time for the Resolutions Committee to thoroughly review all resolutions and make well-reasoned recommendations to the WSDCC.
 - Impact** - Resolutions passed at Caucus meetings occurring during the State Committee Meeting weekends will be taken up for consideration by Resolutions Committee at the next State Committee meeting or Convention.
- Standardize submission of URGENT resolutions by clearly defining “URGENT”, , and add the requirement for submission of an accompanying up to one-page explanation why the resolution requires urgent action. An “URGENT” resolution is now defined as, “requiring immediate action or attention by Washington State Government Representatives and done in response to a time-sensitive or critical situation that will reach its conclusion before the next planned meeting of the Resolutions Committee.”
 - Intent** - The WSDCC needs a method to pass URGENT resolutions during the State Committee Meeting. These types of resolutions will not have the same level of process and scrutiny as resolutions submitted in advance. Clearly defining Urgent, , as well as requiring a short explanation of the need for urgent action will help ensure the content is better vetted and understood by State Committee Members.
 - Impact** - Better understanding and broader support required for passing Urgent resolutions drafted on site and outside of Committees and Caucuses during State Committee Meetings.
- Advocacy subcommittee language removed from Resolutions Committee scope of work due to creation of the standing Advocacy Committee and appropriate references to the Advocacy Committee inserted.

Intent - Remove overlap in Resolutions Committee scope from that of the new Advocacy Committee. Advocacy Committee will work in partnership with the Resolutions Committee on tracking policy priorities where possible and appropriate.

Impact - Advocacy Committee is given full responsibility over tracking legislative proposals.

- Removal of the WSDCC Executive Board language. The “Executive Board” is technically actually the Executive Committee and therefore already included in the mentions of standing committees of the WSDCC.
- Shifting of the resolution deadline from 14 calendar days to 30 calendar days before an upcoming State Committee Meeting to provide the Resolutions Committee ample time to process submitted resolutions

Summary of Resolution Notation

All resolutions have their title listed in the upper right hand corner of the page. Here is a sample of a resolution title.

WSDCCRES - 522 - 550918 - SUB - ARTS - Commemorating Star Wars Day

The title consists of several parts, which are explained below.

WSDCCRES	The body that passed the resolution. Resolutions are separated based on which body passed them. The majority of resolutions are passed by the WSDCC, and their titles begin "WSDCCRES". Resolutions passed by a State Convention are considered separate from those both resolutions passed by the WSDCC and resolutions passed by other State Conventions. Each State Convention has a unique identifier (2006SCRES, 2008SCRES, 2010SCRES), indicating which resolutions were passed by that State Convention.
522	The resolution's number. Resolutions are given a number, based on the approximate order in which they were submitted. Resolutions should be submitted with a placeholder for where the assigned number will be inserted. Resolutions submitted to the WSDCC are numbered as a group, beginning with WSDCCRES 000 and increasing from meeting to meeting as more resolutions are submitted. By contrast, each State Convention has its own numbering system. This means that "WSDCCRES 522" is a separate resolution from "2008SCRES 522", which is separate from "2010SCRES 522".
550918	The date of last action on the resolution. In the case of passed resolutions, like the ones listed below, this is the date the resolution passed. Dates are formatted as year, month, day, so 550918 is September 18, 2055.
SUB	The last action taken on the resolution. Examples of actions include "PASS" (passed), "NOPASS" (not passed), "TABLE" (tabled until a later date), and "REFORG" (referred to originator).
ARTS	The issue category the resolution is addressing. The State Party staff separates submitted resolutions into eighteen categories, each of which represents an issue. Examples of these issues are "Agriculture", "Human and Civil Rights", and "Law and Justice". See the previous page for a full list of issues and their abbreviations.
Commemorating Star Wars Day	The resolution's short title. The State Party staff gives each submitted resolution a short title, which briefly explains the topic of the issue.
